## STRENGTHS

React JS   Angular   Vue  
TS/JS   CSS/SASS   HTML5  
NodeJS   GIT  
SOLID   Clean Code  
AWS   Azure   CI/CD  
Jira   SCRUM

## LEARNING

Docker   Kubernetes  
Django   Mongo DB  
GraphQL  
Machine learning  
Computer Vision

## LANGUAGES

Spanish: **Native**

English: **Medium**

## ABOUT ME

Computer systems engineer with 7 + years of experience developing web applications using javascript (React, Vue and Angular) and services(REST). My passion is technology and my objective is develop software solutions along with highly performance and dynamic teams. I consider myself a proactive and autodidact person with ease to learn new things and i like the challenges.

## EXPERIENCE

### Front-End Developer | Top Doctors/BeHIT

📅 August 2024 – Current

📍 Remote

- Implementation and migration of platform for hospital management, the project was done on angular 1 and was migrated to vue 3, using MEVN (Mongo, Express, Vue, Node) stack
